the easy way to interact with the æternity blockchain

by kryptokrauts.com

ABOUT US

“

The goal of kryptokrauts is to create a knowledge platform for the crypto community - created by people and made for people. Currently the project is evolving and we are very curious about its future development. We encourage you to check out our [krautTIMELINE](#) to which everybody is invited to contribute!

We have many ideas we want to bring to life and invite you to [join our discussion](#) on Discord to play a part in the growth of kryptokrauts!

ABOUT AENALYTICS

æanalytics.org

- a tool that puts the user in the center
 - ◆ e.g. personalized dashboard
- strong focus on the **ÆNS** (æternity naming system)
 - ◆ show auctions and when they end
 - including bidding history
 - ◆ show names and when they expire
 - including link to the auction
 - ◆ **Personalized:**
 - manage your accounts
 - add them manually
 - > no interaction possible, only tracking
 - connect to **base aepp**
 - > this will allow interactions like updating/extending your names
 - list owned names on account page
 - show active bids
 - show outbids
- focus on **desktop** users **first**
 - ◆ from time to time we will also make sure it can be used on mobile devices

The screenshot shows a user's account page with a pink header. In the top right corner, the text "ak_ at ... M2J iE" and "518.438559 Æ" is displayed next to a user icon. A green arrow points from the text "GO TO YOUR ACCOUNT PAGE" to this user information. Below the header, there are two white cards. The left card, titled "Active Bids", lists "jade.chain" (in ~ 4 days) and "trip.chain" (in ~ 3 days). A green arrow points from the text "YOUR ACTIVE BIDS" to this card. The right card, titled "Outbid", contains the text "You are not outbid yet". A green arrow points from the text "SEE WHEN YOUR WERE OUTBID" to this card. Both cards have a bell icon in the top right corner.

server

ÆNS FEATURES

expect further improvements and
interaction possibilities (e.g.
claiming)

we aim to incentivize community
members to extend names by
introducing a reward mechanism

WALLET SUPPORT

we want you to be able to connect
to ænalytics using different wallets

the next wallets to support are:
Waellet browser extension
SuperHero browser extension

STATISTICS

we want to provide all kinds of
statistics that you might be
interested in

let us know what you want to
know!

TOKENS

we want you to be able to see a
list of tokens that live on the
æternity blockchain

you will also be able to see token
transfers

CONTRACTS

we want you to get more insights
in contract interactions
